POT PLANTS

2025-2026

Order plants online!

# Our Webshop Benefits

Our easy to use webshop is made for your convenience.

- Real-time availability
- Fast order confirmations
- Adjust your orders
- Surplus sales
- Import orders via Excel
- Substitutes
- Growth Strategies

Using our webshop can save you a lot of time, because you order directly on availability and your order is confirmed within minutes. You can easily adjust your orders online.

We help you out with handy tools like providing substitutes during the ordering process, an order import tool via Excel and we provide growth strategies to optimize your production.

Please visit our website for more information or scan the QR code below. Here you can also apply for an account.

# About this year's Pot Plants Catalog

In this catalog, we are delighted to showcase the Dümmer Orange® pot plant assortment.

This year's pot plant assortment brings together the very best of our breeding expertise. Alongside trusted classics of Pot and Garden Mum, Pot Aster, Kalanchoe, Saintpaulia and Euphorbia milii, you will discover exciting new varieties that

combine strong performance, vibrant colours, and outstanding shelf life. These novelties have been carefully selected to inspire growers and retailers alike, offering fresh opportunities for dynamic programmes and creative displays.

To make your planning even easier, you will now find the Confetti Garden® products at the end of each crop section.

# Pot Mum

GEMPOP

## Mini decorative flowers

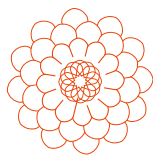

The GemPop series impresses with many decorative mini flowers, very even, good branching and intensely bright colors. With yellow, red, purple and white, all the main colors are already available for the launch. Nothing stands in the way of a brilliant appearance at the point of sale.

BREEZE

## Fresh singles

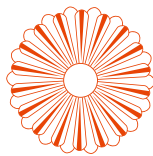

The Breeze series is refreshingly beautiful. This single-flowered series-freshens up every interior or exterior space. Sparkling flower colors around a green centre, what's not to love? Let Breeze surprise you!

CHRYSTAL

## Strong decoratives

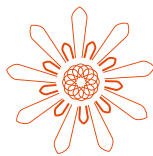

Quality has never been so accessible. The decorative Chrystal series blooms in every climate and is there for you to enjoy. Whatever shelf or growing condition, Chrystal will be filled with petals.

RAINBOW

## Passionate bicolors

It is no surprise we named this series Rainbow. Like sunshine after rain, this series certainly brightens up your day. This single-flowered series is characterized by the stunningly beautiful bi-color effects wrapped around a fresh green centre.

SPLASH

## Exciting specialties

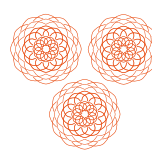

Through years of breeding, we are able to offer you some splashing varieties. This specialty line has three very exciting options to offer, all with extravagant flower types.

SUNTASTE

## Exceptional shelf life

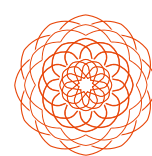

These stunning potmums feature large, vibrant anemone-type blooms in a variety of eye-catching colors. Grown with care for maximum performance, Suntaste offers exceptional shelf life.

COSMO COMPACT

## New generation disbuds

Market is changing rapidly in regards of usage of grow regulators. We have developed a new series of the well known Cosmo varieties, but growers don't need to use any grow regulator.

COSMO

## Classic disbuds

All varieties in this series have large, beautifully incurved flowers with endless petals. On top of that, they are easy to grow and require little growth regulators. Be inspired by these classical beauties!

## Pot Mum Breeze

Breathe life and color into your everyday with the Breeze series, featuring sweet and delicate daisy flowers and a green center.

# Discover Intrinsa<sup>®</sup> plants powered for a greener future.

Intrinsa<sup>®</sup> brings advanced techniques through traditional breeding with the ambition of creating sustainable and economically viable plants for a greener future.

## Connecting the world

Intrinsa allows for greater accessibility of plant material produced from more countries worldwide for a broader availability to your garden.

## Transforming supply

Intrinsa advanced breeding techniques help make crops more reliable for greenhouse and nursery growers, ensuring a steady supply of your favorite blooms.

## Making homes and gardens greener

Intrinsa technology identifies unique DNA patterns with natural disease resistance, reducing pesticide needs using these innate genetics.

## Invest in the future

By investing in the Intrinsa<sup>®</sup> brand

## Stronger, healthier plants

By advanced breeding technology

## True beauty comes from within

Plant power breeding by Intrinsa<sup>®</sup>

## Look for the icon

Look for the Intrinsa<sup>®</sup> icon to identify chrysanthemum varieties which have high resistance to CWR for a more sustainable and economically protected future.

## Imagine a future where Garden Chrysanthemum White Rust is a worry of the past.

**Intrinsa® breeding with Garden Chrysanthemum – Your best defense against White Rust comes from the plant power within.**

Intrinsa® from Dümmer Orange brings varieties to the market using the science of advanced breeding where the desired approach for developing improved performance on high disease resistance is identified. As a result of this breeding approach, the Intrinsa® collection of chrysanthemum now offers you a natural defense against CWR infections from the plant power within. Resistant varieties do not show any symptoms and do not cause spread of the fungus.

**INTRINSA™**  
plant power

## Look for the icon

Look for the Intrinsic<sup>®</sup> icon to identify chrysanthemum varieties which have high resistance to CWR for a more sustainable and economically protected future.
